Cotton Report Issued.

Washington, Jan. 23.—According to the cotton ginning report issued by the census bureau today 14,510,676 bales, counting round as half bales, were ginned from the growth of 1911 up to Jan. 16, 1912, as compared with 11,253,147 bales on the same date in 1910.

The percent of the last two crops ginned up to that date is 97.3 for 1910 and 97.2 for 1909.

Round bales were 97,668 as compared with 111,073 in 1910.

Sea Island included 109,592 bales for 1911 as compared with 86,424 bales for 1910.

Hadley for Roosevelt.

Jefferson City, Mo., Jan. 23.—Governor Hadley, in a statement Tuesday, said he favored the nomination of Theodore Roosevelt as the republican candidate for president.

"From information that has recently come to me from all parts of the state," says Governor Hadley, "I am convinced a large majority of the republicans are in favor of the nomination of Theodore Roosevelt as candidate for president."

Fumigate, Disinfect

PURIFY THE PERSON AND CLEANSE AND FUMIGATE THE PREMISES

While our town is considered free from Meningitis, it is also wise to keep it so. This can be materially aided by the timely use of disinfectants in the house and about the premises; the use of the Nasal and Throat Atomizer, Listerine, Glyco-Thymoline, Septoline, Euzomol, PEROXIDE OF HYDROGEN and various other anti-septic agents which can be found at any up-to-date drug store. Insist on S. & D.'s or Nyal's Peroxide—25c Bottles.

"OUR FOUNTAIN is STYLE all THE WHILE"

NO MORE CASES OF MENINGITIS

No New or Suspicious Cases Found by Physicians—Clean Up Continues.

The meningitis scare seems to be subsided, at least for the time being. Although every one is extremely vigilant, no new or suspicious cases have been found, and with the bright weather now prevailing, it is not believed that there will be much more to it. Dr. Faust, county health officer, is the authority of the paper that there are no new cases.

A report was received last evening from the state bacteriologist regarding the fluid from the bodies of the two children who died Sunday. The report confirms the diagnosis which resulted in the local physicians pronouncing the cases meningitis.

To date sixty cases have been reported in the entire state, about half of which have resulted fatally.

The work of cleaning up the town continues, and on every hand can be seen signs of improvement in this regard. This in itself will probably be the means of warding off many cases of fever and other diseases during the coming summer. As stated before, it now seems only necessary to exercise due precaution and conceal no facts which may develop.

COTTON RECEIPTS CLOSE TO 12,500

Cotton continues to come in, and during the past few warm days an amount has been received that puts the total number of bales for the season above 12,000.

Yard receipts are 10,495 bales. The round bale gin's output is 2,728, equivalent to 1,364 square bales, a total of 11,859. To this must be added about 500 bales shipped direct from the gins, making a grand total for the season of not less than 12,300. No question now of the accuracy of the high guess made at the beginning of the season by A. K. Thornton, even though that guess ruffled the feelings of many farmers.

Honor for An Ada Man.

The action of the Coalgate convention, yesterday, in electing Judge C. T. Barney, of this city, as an alternate delegate to the National Republican convention is very gratifying to his numerous friends. Until near the opening of the convention, he was a prominent candidate for delegate; but, in the interest of harmony, accepted the unanimous election as alternate, and will attend the convention in Chicago.

PRES. TAFT GETS FIRST BLOOD

Coalgate Convention Instructs for Him—Roosevelt Sentiment Strong.

Coalgate, Okla., Jan. 23.—What had been planned a stampede for Roosevelt but resulted in merely riotous scenes and pandemonium beyond description, finally failed dismally against the more quiet Taft forces which by sheer strength of votes, carried off a complete victory in the president being endorsed and delegates instructed for him by a vote of 118 to 32 and for James A. Harris, present state chairman, for national committeeman by the same vote.

The following were elected delegates with Taft instructions to the national convention. J. A. Ramsey of Ardmore and C. W. Miller of Hugo by a vote of 118 for Ramsey and 111 1-2 for Miller. Walter R. Harris, who was also nominated received 74 1-2 votes. Alternates, F. E. Kennance of Madill and C. T. Barney of Ada. E. A. McGowan of Talihina was chosen presidential elector.

The real fight started when the roll was called for a vote on temporary chairman, which was to decide to which faction the control of the convention would go. Chairman Perry was finally forced to live up to his promise of a "square deal," which famous assertion he had featured purposely in his speech to push along the Roosevelt sentiment.

The election of J. N. Humphrey of Atoka, former federal jury commissioner as temporary chairman was finally accomplished after a first vote had been challenged by the Taft-Harris forces, who, by their organized and determined procedure, forced a second count of the vote. It resulted 70 1-2 to 63 1-2 for Humphrey, defeating Ardin L. Bullock of Ada, a Perry man. The first vote announced was 74 to 65.

The climax came when the minority report, signed by one of the eighteen of the resolutions committee, was read to the convention.

Shrieking, howling and other stampede tactics at once were resorted to but pandemonium of unbounded frenzy resulted when Chairman Perry, after the reading of the minority report which strongly endorsed Roosevelt, jumped on the platform yelling at the top of his voice "slap Roosevelt in the face if you dare."

Under the leadership of Chairman Perry a rioting demonstration broke out led by the "Rough Rider" element and a number of men who, it is claimed, had not been in the convention hall until then. In the tumult an American flag was dropped on the stage by the "Rough Riders." Every violent effort possible was made to get the Roosevelt crowd to storm the platform all of which after ten to fifteen minutes of rioting weakened against the placid but determined groups of Taft adherents, gathered around Jim Harris, who quietly smoked his cigar through it all.

The Perry forces, finally being forced to admit their defeat, despite storming the platform, upsetting tables and chairs occupied by press representatives, gave up rather suddenly. The chairman himself, Ed Perry, quit swearing bitter vengeance and vowing to carry the fight on Taft and Jim Harris into all other districts and into the state committee.

After that delegates and alternates were elected in a few minutes. The delegation of coal county, Mr. Perry's home county, refused to vote.

STANDARD OIL COMPANY FINED \$55,000

Buffalo, N. Y., Jan. 23.—Convicted of accepting rate concessions from the Pennsylvania and the New York Central railroads in 1905-06, the Standard Oil Company of New York was fined \$55,000 in the federal court here today. The maximum possible fine might have been \$2,860,000. Some time ago the Pennsylvania was fined \$35,000 and the New York Central \$20,000.

The fines against the Standard Oil Company were assessed for 143 violations of the interstate commerce law and related to shipments of oil from Olean, N. Y., to Burlington, Vt. Conviction was secured on Dec. 6 last.

ANNOUNCEMENTS

The News is authorized to announce the following gentlemen as candidates for the offices named, subject to the action of the Democratic primary in August.

Register of Deeds
D. W. SWAFFAR

For Justice of the Peace, Ada, Precinct:
H. J. BROWN

To borrow a crude but apt illustration that has often been used before, it may be said that the protective tariff is an immense cow fed in the west and south and milked in the east. The people of the west and south furnish nearly all the feed while the manufacturers of New England get all the milk and butter.—Ex.

Besides many other minerals known to exist, Pontotoc county has a great deal of iron ore. If gas is struck in sufficient quantities to be used for smelting purposes, another great industry will be developed here. Besides this, there is an unlimited supply of glass sand, which will also prove a source of profit and revenue.

Some people seem to be surprised and almost indignant that they should be called upon to pay for a copy of a newspaper. They lose sight of the fact that it costs money to print a paper, and that the printers must be paid. No one would think of going into a store and call for a spool of thread or paper of pins without expecting to pay for it, yet neither costs the dealer any more than a copy of the paper costs the publishers to print.

It appears that the rock asphalt deposits of Oklahoma will be the means of breaking the grip of the Trinidad asphalt trust, which has for years had a monopoly on this valuable paving material. The superiority of the paving done with the Oklahoma product, as well as its cheapness, combine to make it the most popular material of the future. Pontotoc county can supply the cities of a dozen states for many years to come, as well as furnish enough for many miles of good roads.

Here is a little problem which is causing some of our local merchants to maste more white paper and gray matter figuring it out, than such grade is worth. A shoe dealer having sold a pair of \$2 shoes was tendered in payment a \$10 bill. Not having the change he stepped into a grocery, got it and closed the trade. Shortly after the customer had departed, the grocer appeared in the shoe store and demanded restitution, having discov-

ered the \$10 bill to be counterfeit. What the shoe man wants to know is how much he is out.—Wichita Eagle.

Reports from county superintendents show that there are 556,852 persons of school age in the state included in the enumeration, and the report is from the state treasurer and the school land department indicates that the state apportionment will be greater per capita this year than ever before. Oklahoma has advanced wonderfully in education since statehood. The present system is an emphatic improvement over the system prevailing before statehood, when in more than one-half the state free schools facilities were denied to all except certain Indians and negroes.—Ex.

The republican convention at Coalgate was rather significant as showing the strong feeling against Taft that exists among republicans everywhere. Although they had the organization behind them, the Taft men had to put up a hard fight to capture the convention. The real test of strength was shown by the vote for temporary chairman in which Humphrey of Atoka the choice of the Taft faction, was elected by the narrow margin of seven votes over Bullock of Pontotoc, the Roosevelt man. Of the Pontotoc delegation five were for Roosevelt and two for Taft. Of course after the temporary organization had been won, the Taft men had things all their own way, most of the Roosevelt crowd climbing into the band wagon. Evidently Taft's road will not be altogether strewn with roses.

HOPE, THE VITAL PRINCIPLE.

The ancient philosopher who invented the myth of Pandora turning loose a whole barrel of sorrows and evils that had been confined to keep them from afflicting mankind, but in her fright slammed down the lid in time to prevent it from also escaping from the race, certainly could have found no more striking manner of portraying a vital principle in the general makeup of a man. Although afflicted and sorely beset with the many misfortunes and evils freed by the woman in her insatiable curiosity to know what was in the barrel, man is buoyed up and sustained through them all by the spirit of hope, which keeps whispering to him that there is a better day ahead.

In early life he reads of great heroes, and hopes that he may become a greater warrior than Napoleon a greater statesman than Washington, or a greater poet than Shakespeare. In school he may be at the foot of the class today, but he hopes to be at the head tomorrow, and strives the harder to reach that desired place. He plucks the most beautiful rose only to find a blemish where he thought none existed, but he

is confident that some Burbank will yet produce a perfect flower. He admires perfection in all things, and hopes to attain to it in his friends and finally to attain to a measure of it himself.

Later in life he finds that in most of his hopes he was deceived, and that he had hoped in vain. The things he most longed for were either unattainable or else were found worthless when he secured them. The friend he trusted proved a traitor, and instead of becoming a man of more than ordinary attainments himself, he must content himself with a humble station in life. Yet, in the face of all this he does not lose hope. He hopes that his children will profit by the mistakes he made, and that in them he will realize some of the ambitions that had fired him to his greatest efforts, but which had not been realized. Even when disappointed in this he still hopes that beyond the grave he will realize all that he had failed to reach in this, and that in the after life, at least, he will see the perfection which he so much desired in this life.

It is only when a man loses hope that his ruin is at hand. Hope is to a man what a life preserver is to the sailor on a storm-tossed sea. It keeps him above the water until aid comes and he is once more placed on the shore of safety.

Mob at Allen.

John Merston went to Allen to see his girl last week and shortly after his arrival there, Will Whiteley conceived the brilliant idea of reporting that the couple had been quietly married. The report spread rapidly and about nine o'clock, while John and his lady friend were comfortably seated before the fire, earnestly discussing such matters as the tariff and the Turko-Italian war, their bliss was suddenly broken by a hideous racket from the outside. Springing to their feet and instinctively spinning their chairs about, they turned to face a determined mob of young people who demanded that John "set 'em up" and do it right now. John and his girl denied and explained and plead, but the noisy crowd would not listen, and, at last, John was seized, bound astride of a rail and carried to the creek. At this point the girl's mother took a hand in the game and succeeded in convincing the mob leaders that what ever else John might be guilty of, he was not guilty of committing matrimony.

The victim was then liberated and the fury of the mob was turned upon Will Whiteley, who had taken a hunch as to the way the wind was blowing and made himself exceedingly scarce. It is reported that he was seen at 10:30 in the high timber four miles from town and still hiking. It was good for him that he made his get away, for if he had been caught he would have gone into the creek as sure as his name is Bill. He is still somewhat nervous and has made a solemn vow never to start any more false rumors concerning weddings.—Francis Wigwam.

CRIMINAL COURT CATCHING UP WITH HEAVY DOCKET

Oklahoma City, Ok., Jan. 20.—Litigants in the criminal court of appeals of Oklahoma will secure quick action on their cases in the future, as the court now is nearly abreast of its docket. Only about four hundred criminal cases now remain on the docket of the court undecided. The court is only one term behind on misdemeanor cases and two terms on felony cases.

The court has dispatched its work so that under ordinary cases where no unusual delays are caused by attorneys for the litigants, a misdemeanor case can be decided within eight months of the time it is appealed and a felony case within a year. It requires about this length of time to reach cases of these classes when the court is not behind its docket and when all the ordinary procedure is complied with.

Since the Criminal Court of Appeals was established a little more than three years ago 1,600 criminal cases have been filed in the court. Of this number approximately 1,200 were appeals from convictions for violation of the prohibitory law. In addition to these cases 132 criminal cases were transferred to the criminal court of appeals upon its organization from the state supreme court.

The Criminal Court of Appeals for several months past has been grinding out opinions at a rapid pace. More cases have been disposed of than in most of the other states of the Union. The court since its organization has disposed of more cases than fifteen older states of the union have disposed of since the organization of those states according to records that have been kept on this subject.

The average number of cases that a Judge of a court of last resort

CULBERSON INQUIRES INTO CAMPAIGN CONTRIBUTIONS

Washington, Jan. 23.—Demanding an investigation into campaign expenditures in 1904 and 1908, Senator Culberson of Texas, in the senate today, made sweeping charges of corruption against the republican committees for those and other years. Indirectly he charged foreign ambassadorships were bestowed as a reward for campaign contributions, and inferentially he charged that former President Roosevelt had condoned the use of money in politics.

Mr. Culberson's address was made in anticipation of an unfavorable report by the Committee on Contingent Expenditures on his resolution providing for an investigation. He said that the limitations of the proposed inquiry to 1904 should not be construed as a confession that there had not been improper practices before that period.

Referring especially to the campaign of 1908, Mr. Culberson said the contributions to the democratic fund had been made by 74,000 persons, with \$5,000 as the largest, while those of the republican fund were made by 12-330 persons, with Charles P. Taft, brother of the republican presidential candidate, at their head with a donation of \$110,000. Among the contributors mentioned were Ambassadors Reid and Kerens and Minister Larsen.

Mr. Culberson referred to the fact that George B. Cortelyou, in the 1904 campaign, was chairman of the republican National Committee, while he was secretary of commerce and labor, and intimated that Mr. Cortelyou had taken advantage of the secrets of corporations whose affairs might be investigated under the federal law to procure money for the campaign.

"It has been estimated," he said, "that the enormous and unconscionable sum of \$11,000,000 was raised and probably expended that year by the committee of which he was chairman. The very size and audacity of this fund, if approximately correct, smacks of extortion, profligacy and corruption. Who contributed it and where did it come from?"

New Treatment for Jag Victims.

Hancock, Mich., Jan. 23.—Compulsory conversion for the convivial is proving a success so far as Houghton county is concerned. Its "Jag detective" has been on the job for six weeks and during that time he has induced more than a half hundred habituals to cease drinking. He also has provided employment for a goodly number of his converts.

Frank Rakkola of Calumet is the man to whom fell the assembling of a unique picture gallery. Only one qualification admits to this very exclusive collection—habitual drunkenness. The periodical drinker and the methodical drinker who maintain their equilibrium and who pay their grocery bills are excluded. Three galleries have been established in 300 Houghton county saloons and are for pictures of habitual drunkards, but as yet they contain only three portraits. The "jag defective" and the jags gallery have been the means of diverting the wages of at least fifty men from the saloon to the family purses. As an economic measure the idea, which was proposed by Supervisor Richard Rourke of Franklin Township, himself a saloon keeper, has more than met expectations. Rakkola in addition to straightening up the drunkards has cleared the saloons of their star loafers, much to the gratification of the liquor men themselves.

Today Judge Barton sent Johnson Byrd, a fifteen-year-old Indian boy from near Jesse, to the reform school at Pauls Valley. The boy had been accused of a number of offenses, including the theft of a horse, and being under sixteen, came under the jurisdiction of Judge Barton as judge of the juvenile court. This is the second boy he has sent to the school.

Are you leaving town and want to sell your household goods? Call me up. Phone 486. L. E. Miller, 206 W. Main. 248-1f

HOW ABOUT THE BUSINESS COLLEGE?

Prof. T. M. Flannery, who has been here several days working on the proposition of establishing one of Draughon's business colleges in Ada, was called away this afternoon by urgent business, and may not be able to return to Ada until the latter part of next week. He stated that he had secured pledges of twenty-five students, ten short of the number wanted. He left the matter in the hands of the Chamber of Commerce and business men, and with a good day's work the additional students can no doubt be secured. The matter is now squarely up to Ada, and if the very reasonable conditions are met, the school will be added to the educational facilities of Ada. Any one interested should see R. E. Blanks at once.

A Helpful Wife.

Mrs. Robert M. LaFollette was educated in law and was admitted to the Wisconsin bar prior to her marriage to the Wisconsin senator. She never practiced law, however. Senator LaFollette was once trying a law suit which had been appealed to the Supreme Court. It became necessary for him to write a brief upon short notice to present before that court, and he was tied up in other legal matters so that he did not see how he could spare a moment to compose the document. Suddenly a thought struck him and he asked Mrs. LaFollette if she thought she could do it. She said: "Certainly."

Senator LaFollette gave the case no further attention, and indeed forgot all about it. It was won by his client and one of the justices of the supreme court of Wisconsin, meeting him at luncheon one day, mentioned the name of the case and said:

"Senator LaFollette, I must compliment you upon the brief in that case. It was a well and closely written document, expounding the law in a masterly style, one of the best I have ever seen and was indeed a masterpiece."

"I shall be proud and happy," said Senator LaFollette, "to repeat your remarks to Mrs. LaFollette. She wrote and filed the brief and I never even looked it over after she had finished it."

Sorosis.

Sorosis will hold their regular meeting Friday, Jan. 26th, with Mrs. Robert Wimbish.

The program follows:
Response: Current Events.
Lesson: Act III, Scene 3.
Leader: Mrs. Wimbish.
Table Talk: Jealousy: its cause, development, and result in Othello.
Leader: Mrs. Moore.

See Madam Chira the Palmist and Clairvoyant at Commercial Hotel for a few days only. 249-2t*

**A. & M. SPECIAL
THURSDAY FEB. 1**

**Will Remain in Ada from 10:30 A. M.
Until Noon—Good Seed and Fine
Poultry Exhibits.**

Oklahoma City, Jan. 24.—Bringing a college to the farmers on a train is what is now being done in eastern Oklahoma, through the courtesy of the M. K. & T. railway company. The first poultry and pure seed train of 1912 under the direction of the Oklahoma State Board of Agriculture and the A. & M. college, started Wednesday morning from Arcadia on a ten day's trip that will cover a large portion of eastern Oklahoma, stopping at twenty points.

These special agricultural trains are proving extremely popular over the state and large crowds attend the lectures at every stop. In the first place, the train does not cost the taxpayers of the state a penny; the railroad company pays the entire operating expense of the trip. In the second place, the farmer is given a chance to hear carefully prepared lectures on agricultural subjects by men who know and to see the poultry, fine dairy cattle, and samples of prize winning seed with his own eyes.

An Oklahoma farmer grew the wheat that took first prize at the Dry Farming Congress at Colorado Springs last year, in competition with the entire world. A half of the winning bushel is on this train and is one of the most interesting exhibits carried on the trip. Other prize products of the Oklahoma farmers are carried, as well as the best poultry and live stock that experts can grow, and an excellent set of lantern slides for the night lectures.

Leaving Arcadia Wednesday morning, the train started northward on the Katy, making its first stop at Cushing. The schedule for the entire week includes stops at Yale, Jennings, Hallette, Hominy, Broken Arrow, Wagoner, Pryor, Vinita, Checotah, Crowder, Kiowa, Atoka, Durant, Ada, Coalgate, Stonehill, Konawa and Maud, with evening sessions at Cushing, Hominy, Wagoner, Vinita, Crowder, Atoka, Coalgate and Konawa.

Lectures are being given at the train on, Better Poultry for Oklahoma; Selecting, Feeding and Breeding Poultry; Increasing Crop Yields on the Acre, by Seed Selection, Preparation, and Cultivation; Bermuda Grass Agricultural Education in Oklahoma; Good Roads; the Orchard as a Source of Profit in Eastern Oklahoma; Corn Alfalfa and Live Stock; Types of Dairy Cattle; the Babcock Test and its Application; Seed Corn, and How the College Assists the Boys and Girls' Agricultural clubs.

President G. T. Bryan of the State

Board of Agriculture and President J. H. Connell of the State A. & M. College will be with the train at a number of stops but Dean B. C. Pittuck of the Secondary Agricultural school is in charge of the trip. The lecturers consist of J. W. L. Corley, Geo. H. Hinds, and Frank L. Haynes of the board of agriculture; Secretary Benj. Hennessy of the board; Dean Pittuck Dean W. A. Linklater of the division of agriculture; Director James A. Wilson of the state experiment station; Professor Roy G. Potts of the Dairy department; Professor N. C. Both of the horticultural department; Supt. Marle Woodson, demonstration farm department; Supt. M. F. Ikard, live stock inspection department; Prof. O. O. Churchill, agronomist; Supervisor John W. Wilkinson of the Boys' and Girls' agricultural clubs; Prof. H. A. Bittenbender, instructor in poultry management; and Charles P. Light, field secretary American Association for Highway Improvement.

All of the lectures are free and the farmers are urged to attend and bring their families. As soon as this trip is finished, arrangements have been partially completed for the Santa Fe railway to take up the train and carry it on a further trip into another section of the state.

THE FAVORITE LAXATIVE

**One at Night Makes the Next Day
Bright; No Charge if It Doesn't**

Because of its extremely gentle and effective action, Rexall Orderlies have become the most popular remedy for Constipation.

We are so positive that Rexall Orderlies will do all that is claimed for them that we positively guarantee to hand back the money you paid us for them upon your mere request, if you are not entirely satisfied.

Rexall Orderlies are eaten like candy, are very pleasant to the taste, do not gripe, cause nausea, or any other annoyance usually experienced when ordinary cathartics are used.

Rexall Orderlies have a positive regulative effect upon the bowels and tend to provide permanent relief from Constipation and the myriad associate ailments. Besides, they help to overcome the necessity of the constant use of laxatives to keep the bowels in normal condition.

We honestly believe there is no similar medicine so good as Rexall Orderlies, especially for children, aged or delicate people. They are prepared in convenient tablet form, in three sizes of packages. Prices, 10c, 25c, and 50c. Why not try them at our risk on our guarantee.

Remember, Rexall Remedies can be obtained in this community only at our store—The Rexall Store—The Gwin & Mays Drug Co.

All kinds of blank books, ledgers, cash books and day books at Holley's Drug Store.

REPORT OF COTTON CONTEST

Yukon, Okla.—The Oklahoma Cotton Seed Crushers Association held a meeting in Oklahoma City today, one purpose of which was to consider the results of the Boys' Cotton Club work under the United States Dept. of Agriculture, for which they gave \$300 in prizes this year. W. D. Bentley, State Agent in Farmers' Co-operative Demonstration Work and Fred H. Ives in charge of Boys' and Girls' Demonstration Club, both of Yukon, Okla., were present to make a report on this work. Charles M. Brandon, Checotah, Okla., winner of the free trip to Washington, D. C., offered by the association, and one of the five winners of diplomas from Governor Crouce, was also present and read the history of his cotton crop.

The report made of the Cotton Club work was as follows: "There were enrolled in the Cotton Club in Oklahoma this year 1722 members, fifteen percent of whom were girls, 153 of these members sent exhibits to the state contest at the Oklahoma State Fair, 39 of these exhibitors were girls. Next year, however, the girls will be encouraged to raise tomatoes instead of cotton. 128 club members sent in reports of their crops and of this number 58 reported a yield of 1000 pounds or more of seed cotton per acre."

"Some of those who reported high yields did not win prizes, because these prizes are awarded on the following basis:

Yield of seed cotton per acre 30 per cent.
Exhibit 30 per cent.
Net profit on the crop 35 per cent.
Written history of the crop 15 per cent.

The eight prize winners in the state contest this year made an average yield of 1841 pounds of seed cotton, 609 pounds of lint cotton per acre."

"Of the 153 exhibits sent to the state fair, 12 were given a perfect score. Each exhibit consisted of 1 plant, 12 open bolls, and 2 pounds of seed cotton. They were first judged by Mr. J. P. Maples, of Oklahoma City, from the standpoint of commercial value of the sample shown; then by Mr. Geo. L. Bishop, of Cordell, from the standpoint of best plant type for Oklahoma conditions."

"The seed cotton of each exhibit was then ginned to find the percent of lint. The machine used for this work was an 18-saw gin furnished for the purpose by the Continental Gin Co. through the influence of Mr. M. L. Clayton, Oklahoma City. The highest lint turnout was 42.3 percent from the exhibit of Johnnie Bruner, Hope, Okla. The average turnout of the forty high-scoring exhibits was 36.2 per cent lint."

"The average cost of production of the eight prize winners in the state contest was a little over 6.5 cents per pound of lint cotton."

"In making the awards of prizes we have taken every possible precaution against mistakes of all kinds. We have visited the homes of prize winners to verify yields and reports, and to become personally acquainted with the contestants. We are sure that each award is correct and that each prize winner is deserving of the prize received."

"I wish also to report that one manager of a cotton oil mill, Mr. P. A. Norris, Ada, Okla., who is a member of this association, was one of our regular cotton demonstrators this year. He made a net profit of \$291.77 on a yield of 18,240 pounds of seed cotton and 4200 pounds of boll cotton, from sixteen acres of land. All seed, lint, labor, fertilizer, etc., was figured at regular market prices. Mr. Norris followed the instructions of this department carefully."

"We take this position on the record. The farmer who now depends on cotton for every thing should decrease his acreage and diversify his crops. The farmer who is growing cotton at a loss, or who can not grow it as cheaply as the average of these boys, should cut down his acreage until he can grow it profitably. Farmers in the cotton district who grow corn, wheat and oats chiefly, can plant at least one-fourth of this land in cotton and still produce just as many bushels of grain with the proper rotation."

The Cotton Seed Crushers Association passed resolutions heartily commending the work of the U. S. Dept. of Agriculture in the Farm Demonstration work in Oklahoma, and asking for a continuance and increase of the same. The members also promised aid which will give at least \$2,000 premium money for local prizes for the Boys' Cotton Club work next year under the U. S. Dept. of Agriculture in this state.

The Frisco has a force of surveyors in its yards today making a new plat of the tracks. When it begins work on the new depot, the road will also add largely to its trackage and yard facilities, and this is probably a preliminary step.

SHE GAVE UP ALL HOPE

Physicians Failed To Help Mrs. Green, But She Finally Found Relief in Cardui.

Meetez, Va.—Mrs. J. C. Green of this place, says: "I suffered with womanly troubles so that I could hardly sit up. Two of the best doctors in our town treated me, and I tried different medicines, until I gave up all hope of ever getting well."

"One day, I decided to try some Cardui. It did so much for me that I ordered some more, and it cured me! Today, I feel as well as I ever did in my life."

"The pains and the trouble are all gone. I feel like another person in every way. I wish every sufferer could know what Cardui will do for sick women."

"A few doses of Cardui at the right time, will save many a big doctor bill, by preventing serious sickness."

"It tones up the nervous system, and helps make pale cheeks fresh and rosy. Thousands of weak women have been restored to health and happiness by using Cardui. Suppose you try it. It may be just the medicine you need."

N. B.—Write for Ladies' Advisory Dept., Chattanooga Medicine Co., Chattanooga, Tenn., for Special Instructions, and 64-page book, "Home Treatment of Women," sent in plain wrapper, on request.

FRANCIS

The town trustees met in regular session last Wednesday night and appointed George Cladson chief fire marshal. Mr. Cladson will soon organize his fire company and put them in training.

The Moose lodge here is on the boom. Thirty new boosters heard the rattle of the Moose's horns last meeting and one can hear nothing on the streets but "howdy, pap."

Supt. Charles has resigned his superintendency of the Red River division of the Frisco system and who will be elected to take his place seems to be unknown here. We regret to lose Mr. Charles for he is a good citizen and has made an efficient superintendent.

The Loyal Order of Moose has bought the Woodard property on the corner of Main and 5th Avenue. They will use the old building for club rooms for the time being and will in the near future erect a large and commodious building on the corner. This building is to be made of stone and two stories high, fifty feet front and one hundred and forty feet back. The top story will be used as a lodge hall and the first floor for club rooms. It is to be fire proof and an up to date building.

Dr. D. C. Brady sold this week his property on the corner of sixth Avenue and second street to G. W. Keeran, consideration \$2500. He also this week traded his home property to A. J. Polk for 40 acres of farm land one mile Northeast of town.

G. A. Pettie sold his property on Seventh street to P. Corney, consideration \$200.00.

Mr. Clark, father of L. T. Clark, editor of the Wigwag, is reported no better. Mrs. Clark, wife of the sick man, is here from Kansas to help nurse the old gentleman.

The warm weather is giving the farmers a chance to pick what cotton that is still in the field.

When the democrats get the presidency, what, oh, what will the state do with its republican postmasters?

After taking in the situations at Okmulgee and Sulphur, W. R. Brandon reports that the liquor situation is thoroughly satisfactory, the officers at both places keeping the lid pretty well clamped down.

Henry Loman was a business visitor to Fitzhugh yesterday.

HEED THE WARNING

Many Ada People Have Done So.

When the kidneys are sick they give unmistakable warnings that should not be ignored. By examining the urine and treating the kidneys upon the first sign of disorder, many days of suffering may be saved. Sick kidneys expel a dark, ill-smelling urine, full of "brickdust" sediment and painful of passage. Sluggish kidneys cause a dull pain in the small of the back, headaches, dizzy spells, tired, languid feelings and frequent rheumatic twinges.

Doan's Kidney Pills are for the kidneys only. If you suffer from any of the above symptoms you can use no better remedy.

Ada people recommend Doan's Kidney Pills.

Mrs. J. B. Ingram, 208 E. Fifteenth street, Ada, Okla., says: "Although I never used Doan's Kidney Pills myself, I can recommend them, for they have been taken in our home with splendid results. One of the family had kidney trouble and suffered from backache. The use of Doan's Kidney Pills restored the kidneys to a normal condition."

For sale by all dealers. Price 50 cents. Foster-McIlburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

SCOTTISH RITE MASONS HOLDING REUNION

McAlester, Ok., Jan. 24.—The winter reunion of the Scottish Rite Masons began this morning under favorable circumstances. The class in the lodge of perfection numbers 63. This is not a large class but the reunion starts off like it is going to be a great success.

There are many widely known men from over the state watching the work and at noon today at least 225 persons sat down to dinner. The greatest regret of the reunion was conveyed to the bodies today when Sovereign Grand Inspector General Wm. Busby read the following telegram from Grand Commander Richardson:

"Washington, D. C., Jan. 22. "W. Busby, McAlester, Okla.

"Telegram received. Circumstances which I cannot control make it absolutely impossible for me to attend your reunion this week. Please present my fraternal greetings to all your brethren and to your

"JAMES D. RICHARDSON, Grand Commander."

The bodies had expected the grand commander here this week and his failure to come is a disappointment, but the work is progressing nicely.

The souvenir this time is a pin tray in the center of which is shown the Masonic temple with these words: "Winter reunion A. A. S. R., McAlester, Oklahoma, Jan. 23-24-25, 1912."

Please Notify Us.

All persons having cases of empty bottles belonging to the Ada Bottling Works, will confer a favor by phoning or writing us at once.

Healthy Mothers

Mother's Friend is used before the coming of baby, and the healthy woman can remain a healthy mother. It is the only remedy that perfectly and thoroughly prepares the system for healthy motherhood, and brings about a natural and easy consummation of the term. Women who use Mother's Friend are always with no ill effects, or chronic troubles. Every expectant mother should safeguard her health by using Mother's Friend, thus preparing her physical condition for the hour of motherhood. This medicine is for sale at drug stores. Write for free book for expectant mothers.

BRADFIELD REGULATOR CO., Atlanta, Ga.

The bearing of children is frequently followed by poor health for the mother. This supreme crisis of life finding her physical system unprepared for the demands of nature, leaves her with weakened resistive powers and sometimes chronic ailments. This can be avoided if she uses Mother's Friend, which prepares the system for healthy motherhood, and brings about a natural and easy consummation of the term. Women who use Mother's Friend are always with no ill effects, or chronic troubles. Every expectant mother should safeguard her health by using Mother's Friend, thus preparing her physical condition for the hour of motherhood. This medicine is for sale at drug stores. Write for free book for expectant mothers.

Mother's Friend
